

Mucin run summary of current need

 128.192.9.183/elnlachele/2016/05/20/mucin-run-summary-of-current-need

May 20, 2016

Need to point out:

1. Relative flexibility of the Man vs GalNAc at the attachment points
2. Relative flexibility of the backbone under the three conditions
3. Lack of good evidence for bridged water
 1. possible structural explanation for stability

validate vs nmr data
